

TAX RATES ARE CERTAIN TO BE PLACED HIGHER

Expenses, Territory and County, Are Greater Than Last Year.

BOARD WILL STRIVE TO
KEEP LEVY TO \$2.10

Supervisors Will Meet Next
Week for Purpose of Fix-
ing New Figure.

(Special to Review)

TOMBSTONE, Aug. 7.—City Attorney Chas. Bowman, will leave tomorrow for Phoenix where he goes to attend the session of the territorial board of equalization which meets on Monday and will remain in session for several days. That body will place the amount of the territorial tax levy which is expected this year to reach close to 90c, owing to the appropriations that will have to be made for the various territorial institutions. The increase will be from ten to fifteen cents over last year.

The board will, in a number of instances, make a special levy of 25 cents per hundred in some of the counties for the purpose of applying the money for the territorial highways. This levy is only made when it has been requested by the boards of supervisors of the respective counties. Cochise county will not ask for that levy, but will at the time of the levying of the county taxes place a 15 cent levy for road purposes which will give the county considerable money and, with the new law in effect on the first of the year, for a county road superintendent it should afford ample funds to fix the roads of the county up in fairly good shape.

Board to Fix Levy

The Board of Supervisors of Cochise County will meet on Aug. 16 to fix the levy for the County for this year. The increase will become necessary on account of the increase in the territorial rate and on account of the amount needed to run the schools for the ensuing year which according to the estimate filed by the County Superintendent of Schools Stover will be over \$149,000.

The levy last year was as follows: for territorial purposes, 75 cents; general fund, 60 cents; road fund 15 cents; school fund, 40 cents. This year it will not be necessary to levy any rate for the bond fund as the bonds have all been paid off, unless the Board decides to issue bonds to pay off the floating indebtedness of the County which at present time amounts to \$65,000 on which the county is paying 7 per cent. interest. The bonds could easily be sold at a premium and at a rate of five per cent, which would be quite a saving to the county.

It is certain that the school rate will have to be increased from 40 to 50 cents this year. Last year there was some \$12,000 balance in school fund but this year there is only about \$12,000. Allowing about \$30,000 to be collected from the sale of licenses and about \$20,000 from school taxes there will have to be raised in the neighborhood of \$50,000 which will require a levy of fifty cents.

The general expenses of the county are increasing and the levy will have to be increased from 60 to 70 cents. The tax bills which have been continually increasing for several years past during the past year have been reduced, but the other expenses of the County are increasing. The building of new branch county jails, the expense of the county board of health, the purchase and erection of buildings on the ground for the County poor farm all tend to increase the general expenses.

The board of supervisors will use all possible endeavors to keep the rate as low as possible and hope that it will not exceed \$2.10 per hundred.

YOUNG ARMY OFFICERS
ARE OPENLY ACCUSED

ANNAPOLIS, Aug. 7.—The naval board of inquiry which is investigating the death of Lieut. Jas. N. Sutton, marine corps, today held a two hours session behind closed doors and adjourned until Monday when, it was announced, the hearing will again be thrown open to the public.

The secret session today was to examine Mrs. Sutton, mother of Lieutenant Sutton, upon the contents of several letters which she wrote to Colonel Charles E. Doyen, senior of the marine corps at the naval academy, and others regarding her son's death, and which the board yesterday ruled should be admitted in evidence, but should not be read in open court.

"There may be some startling declarations in the letters," said Mrs. Sutton, "but I am prepared to repeat whatever I said and back up my statements. I do not want any secrecy."

Mrs. Sutton's daughter, Mrs. Rose Sutton Parker of St. Paul, will be examined as a witness. Mrs. Parker's testimony promises to be somewhat sensational, as she is expected to tell results of her personal investigation of her brother's death, and relate pertinent conversations with some of the young officers who now stand before the court as accused by her mother of complicity in the shooting in October, 1907, when Lieutenant Sutton was killed or killed himself, as the former board of inquiry determined.

JEROME SAYS EVELYN
WILFULLY FALSIFIED

Prisoner in White Plains Jail
Waits Verdict, Promised
for Thursday.

WHITE PLAINS, Aug. 7.—In a cell in the White Plains jail, Harry K. Thaw awaits a decision as to his sanity. The Supreme Court hearing in the habeas corpus proceedings against the State of New York ended this afternoon when his attorney, Charles Morschauer, summed up his case. District Attorney Jerome preceded Morschauer this morning. Justice Isaac N. Mills said he would try to hand down a decision by Thursday next.

The prisoner's mother, with her daughter, formerly Countess of Yarmouth, and her son and daughter, Mr. and Mrs. Josiah Thaw, will remain here until Harry Thaw's fate is settled. Mrs. Thaw's statements show that if this case goes against her son she will try to free him by other means.

The addresses of District Attorney Jerome and Attorney Morschauer today were alike free from the outbursts of oratory that characterized the two homicide trials. The district attorney was particularly temperate. Of Thaw Jerome spoke pityingly, as that "poor boy." Only two witnesses among the several hundred that testified for Thaw at his trial and hearings were picked out by Jerome for rebuttal. These were Evelyn Nesbit Thaw and Dr. Britton D. Evans.

District Attorney Jerome said, in his belief, Thaw's wife deliberately and wilfully falsified. Evelyn Thaw came in for condemnation by both attorneys. Morschauer said that the reluctance she expressed to testify of Thaw's alleged threat to shoot her was assumed. He said that the night before she testified she had consulted with Dr. Austin Flint in Jerome's office and had formed a combat with the alienist against her husband. Morschauer concluded with appeals for Thaw's mother that left tears on his own cheeks.

He charges the society with endeavoring to control the courthouse and city jail.
